THE COMPANY

Catalano, founded in 1967 in Fabrica di Roma, is nowadays the Italian leading company in sanitary-ware industry, a name that is synonymous of high quality and exclusive design, of solid manufacturing culture and high innovation process; a company that matches high-level automation with the inimitable craftsman capability developed along centuries in this geographic area. Its 50-years history allowed developing a highly specialized know-how, in constant evolution. The production philosophy of the company has always been addressed to achieve a whole-Italian quality; it is a real ethic commitment: Catalano, in fact, invests and produces only in Italy to offer an inimitable quality.

For Catalano, "Made in Italy" origin is synonymous with excellence, reliability, talent and innovation.

We are Catalano.

With our products and our ideas, we want to give you options to improve the quality of your life.

We develop projects that are ahead of the times whilst at the same time are contemporary and never obsolete.

Our various applications are designed to obtain the best result in terms of functionality and personal satisfaction.

We want to offer you solutions which perfectly suit you.

That's why our catalogue not only guarantees style safety, but also a wide range of options for different tastes and needs.

The difference is in the detail. Because we think our customers make a difference.

Moving in one direction: Forwards.

Sustainability.

Environmental protection, social justice and ethical management have become increasingly significant for consumers who are now turning to products and services that can guarantee and communicate social commitment and environmentally friendly policies. Catalano looks to the future with a view to product quality and shared experiences, to create ever better products for the company, for our customers and for the environment.

Research.

The company's evolution is the result of an innate attention to technological innovations capable of responding to the demands of increasingly complex and globalized markets.

The management of resources, the phases of conception, modelling, and production are organised through highly digitised and automated systems.

Catalano adopts Smart manufacturing techniques, for maximum optimisation of production processes.

The increasing investment in robotics has led to a very high level of automation and precision, leaving the final phase of product improvement to the manual phase to the expertise of our skilled craftsmen.

Design

We design icons that enrich your daily life, always aimed at the new, for us every little detail counts and we never compromise on the project, this is how we create products that are ahead of the times, and become protagonists in the bathroom environment. Catalano has won over 60 international awards, accredited, in the field of design, thanks to the continuous research and dedication that distinguishes us.

Material.

Catalano invests and only produces in Italy, to ensure an unimitable standard of excellence using the best raw materials. It also has an innovative plant for recycling ceramic waste, which represents a real revolution in the production sector. The highly energy efficient plant is capable of fully recycling industrial process waste, already derived from the processing of natural raw materials, while maintaining a sustainable impact on the environment.

Smart Manufacturing

INDUSTRY 4.0

The company evolution is the result of an innate attention to technological innovations able to face the demand of increasingly challenging and globalized markets. Resource management, design, modelling and production phases are organized using highly digitalized and automated systems. Catalano uses smart manufacturing procedures for maximum optimization of production processes. The increasing investment in robotics has led to a very high level of automation and precision, leaving to the expertise of our skilled craftsmen the final touch of product improvement.

Made in Italy

All Catalano product are 100 made in Italy, because they are all conceived, designed and manufactured in our sole global production site near Rome. MAde in italy logo is hot stamped in unalterable way to guarantee the origin of our products.

1. Proportion

Catalano products have perfect proportions. Our design is always balanced, harmonious and precise.

2. Precision

Catalano products are synonymous with uncompromising precision: clear lines, precise angles and are excellently processed.

3. Updated

Catalano products follow an attitude that is open to new things. This allows you to always be at the forefront and a leading example in the world of architecture and design.

5. Performance

Catalano products stand out for their great personality and formal coherence.

Newflush[®]

The Original

The elimination of the rim ensures greater continuity of the WC surfaces, making cleaning easier and more thorough with less use of detergents.

The vortex water flow ensures a significant reduction in noise, lower water consumption and a dynamic cleaning action that results in less need for detergents. Catalano patent.

Twinglaze[®]+

The Twinglaze+ system is a technological innovation that characterises Catalano WCs. The Cataglaze+ Silver Titanium glazing process, applied to the inner surfaces of the WC, combines with the elegant satin finish of the outer coating. Twinglaze technology gives the product a strong technological, hygienic and environmentally friendly characteristic, without neglecting the modern and refined aesthetic impact.

Satin glaze

Cataglaze[®] +
Silver Titanium

This special Catalano technique allows the internal parts of the WCs to be treated by applying the anti-bacterial, glossy effect Cataglaze+ enamel, which reduces the formation of limescale and favours the flushing phase of the WC, reducing water friction and consequently optimising consumption.
